

This document provides a Safety Data Sheet (SDS) for nonwoven on a voluntary basis according to EDANA Product Stewardship recommendations, especially in safety requirement. The SDS is a mean of transferring essential hazard information from the supplier of a nonwoven product to the recipient of the product. As nonwovens are generally not hazardous, SDS for nonwovens are not legally requested but must be considered as information. It is inspired from the EC recommendation for SDS.

The information contained in this SDS has been developed by the company on the express request of its customers and to the best of its knowledge. Therefore, the company does not assume any liability with respect to the correctness and/or completeness of the information provided by this SDS. The customer shall not be released from his duty to check all safety relevant properties of the delivered nonwovens and to refer to the official texts for full information on the local obligations.

1. Identification of the product and the company

1.1. Product identifier

Name: Sontara®

1.2. Relevant identified uses of the substance or the mixture and the misadvised uses

Nonwoven product, non-sterile, for external use.

1.3. Company identification

Name: Glatfelter Sontara Asturias S.A.U.

Address: Valle del Tamón S/N,

33469 Carreño-Asturias

SPAIN

Phone number: +34 984 494743

1.4. Emergency phone number

UE Emergency: 112

NON-WOVENS FABRIC Published: 20/04/2023 Page 1/6
REV: B

2. Hazard identification

2.1. Classification of the substance or the mixture

Not applicable.

2.2. Labelling

Not applicable.

2.3. Other dangers

No hazard under normal uses conditions. Can be hazardous in case of thermal decomposition.

3. Composition

3.1. Substances

Not applicable.

3.2. Mixture

Substance	N°CAS	Hazard	Percentage
Nonwovens fabric		/	100 %

Fibers may contain up to 1% of pigment and additive, meet the purity criteria and comply with European regulations.

4. First aid measures

4.1. Description of the first aid measures

- Inhalation: In case of coughing or other symptoms the person should seek fresh air and-if necessary-see a physician.
- Skin contact is non dangerous. In case of long exposition and high allergic sensitivity, consult a physician.
- Eyes contact: the eyes should be washed immediately with plenty of water. If irritation continues, consult a physician.
- Ingestion is not dangerous. If irritation continues, consult a physician.

4.2. Most important symptoms and effects

Not applicable.

4.3. Indication of any immediate medical attention and particular treatment needed.

Not applicable.

NON-WOVENS FABRIC Published: 20/04/2023 Page 2/6
REV: B

5. Measures of fire fighting

5.1. Extinguishing media

Suitable extinguished media: all.

5.2. Particular danger resulting from substance or mixture

Fire risk due to dust in a high concentration and if ignition source.

5.3. Advises for fire fighters

Specific precautions: toxic can be released in case of thermal decomposition.

6. Accidental release measures

6.1. Personal precaution, protective equipment and emergency procedures

Not applicable.

6.2. Environmental precautions

Not applicable.

6.3. Methods et material for containment and cleaning up

Not applicable.

6.4. Reference to other sections

Not applicable.

7. Handling and storage

7.1. Precautions of safe handling

Accumulation of fibre dust may represent at sufficient concentrations a fire and explosion hazard. Remove ignition sources. Beware of electrostatic charges.

Be careful when bale-straps are removed. Use suitable tools and personal protections.

7.2. Caution for safe storage, including any incompatibility

Recommended storage conditions: Indoors in a dry warehouse at a temperature below 60°C. Avoid exposure to heat, sparks or other flames. Rolls packages must be stored in line with existing provisions.

7.3. Specific end use

Not applicable.

Published: 20/04/2023 REV: B

8. Exposure controls/ Personal protection

8.1. Control Parameters

Control limit values for dust.

8.2. Exposition controls

Respiratory protection normally not required. Mask with filter if dust is generated.

9. Physical and chemical properties

9.1. Information on basic chemical and physical properties

Appearance: nonwoven sheets, roll

Color: various Odeur : none

pH: not applicable Density: not measured Water solubility: insoluble Flashpoint: not measured

Meltingpoint/ Freezingpoint: not measured

Initial boiling point and boiling range: not applicable

Flammability (solid, gas): not measured Explosives properties: none known Oxidizing properties: none known

9.2. Other information

Not applicable.

10. Stability and reactivity

10.1. Reactivity

Not applicable.

10.2. Chemical stability

Stable under normal storage conditions.

10.3. Possibility of hazardous reactions

None under normal storage conditions.

10.4. Conditions to avoid

Very high temperature range will promote thermal decomposition.

10.5. Incompatible materials

Strong oxidation agents, strong alkalines and acids.

REV: B

10.6. Hazardous decomposition products

Toxic gas (Carbon monoxide and several organic decomposition products) can be released in case of thermal decomposition.

11. <u>Toxicological information</u>

11.1. Information on toxic effects as defined in CE regulation N° 1272/2008

Non dangerous.

11.2. Information on other risks

None endocrine disruptor property.

12. Ecological information

12.1. Toxicity

Not applicable.

12.2. Persistence and degradability

Not applicable.

12.3. Bio accumulative potential

Not applicable.

12.4. Mobility in soil

Not applicable.

12.5. Results of Persistent Bioaccumulative Toxic and very Persistent very Bioaccumulative assessment

Not applicable.

12.6. Endocrine disruptors properties

None endocrine disruptor property.

12.7. Other adverse effects

Not applicable.

13. Disposal information

13.1. Waste treatment method

Waste must be eliminated in accordance with local legislation. As non-hazardous solid waste, non-woven may be:

- Disposed in a suitable refuse installation,
- Incinerated subject to local regulations.

Or can be recycled, or other valuable use.

14. <u>Transport information</u>

14.1. UN number

Not applicable.

14.2. UN proper shipping name

Not applicable.

14.3. Transport hazard classes

Not applicable.

14.4. Packing group

Not applicable.

14.5. Environmental hazards

Not applicable.

14.6. Special precautions for user

Not applicable.

14.7. Transport in bulk according to OMI

Not applicable.

15. Regulatory information

15.1. Safety, health, and environmental regulations/legislation specific for the substance or the mixture

Not applicable if there is no specific request from local legislation.

15.2. Chemical safety assessment

Not applicable.

16. Other information

Not applicable.

- This document is written in accordance with framework defined by European regulations UE N° 1907/2066 and 1272/2008 named CLP, modified 18/06/2020 by regulation N° 2020/878.
